

INTRODUCING

Semi-precious Stone Certification

Gemlite is a cost effective service for semi-precious stones like Amethyst, Citrine, Topaz, Pyrite, Moonstone, Aquamarine, Topaz, Onyx, Hessonite, Rhodolite and Rock Crystal etc.

All these gem varieties will be certified at affordable charges and applied on loose form, mounted in a jewellery, or strung in a necklace or bracelet. In case of strings, only one random piece will be checked and certified. Under the “Gemlite” service, a post-card size report will be issued.

Fees

GJEPC Member INR 400 | Non GJEPC Member INR 500
Jewellers Association Member INR 500 less 10% Discount

INTRODUCING Origin Determination **BLUE SAPPHIRE**

IIGJ Lab introduces origin determination of Blue Sapphire in alignment with international standards. The specialized reports identify the geographic origin of the Blue Sapphire, including renowned metamorphic sources such as:

- ☀ Kashmir
- ☀ Burma (Myanmar)
- ☀ Sri Lanka
- ☀ Madagascar

However, basalt-related deposits, such as those from Australia, Thailand, Nigeria, Ethiopia, etc., will be reported as basalt-related.

Each origin has distinct chemical fingerprinting, and IIGJ Lab's instruments, are calibrated through carefully selected reference samples, ensuring high accuracy.

Category	Member (GJEPC)	Non Member
Up to 10.00 ct	Rs. 3000	Rs. 3500
Above 10.00 ct	Rs. 4000	Rs. 4500

Lab membership and Jewellers Association's discounts are applicable.
