

ORIGIN DETERMINATION

Emerald, Ruby and Sapphire-Blue/Pink

IIGJ Lab, an initiative of the Gem & Jewellery Export Promotion Council (GJEPC), provides origin determination reports of **Emeralds, Rubies, and Sapphires (Blue & Pink)** at international standards by using advanced technology and experienced gemologists to determine the origin of Emeralds, Rubies, and Sapphires (Blue & Pink).

Each Origin Report includes identification, treatment disclosure, and geographic origin determination. These reports support transparency and reliability in the global gem and jewellery trade.

Carat Category	GJEPC Members (₹)	Non-Members (₹)
Up to 10 carats	3000	3500
Above 10 carats	4000	4500
